REMARKS

Patentee respectfully requests that a Certificate of Correction be issued pursuant to 37 C.F.R. 1.322 and 1.323 for U.S. Patent No. 7,038,103 to correct the errors described above. A Certificate of Correction (Form PTO-1050) incorporating the above changes is submitted with this Request. Since not all the errors are those of the Patent Office, the previous Request for Certificate of Correction mailed on July 21, 2006 was sent with the requisite fee of \$100.00. The Office is hereby authorized to apply the \$100.00 fee previously paid on July 21, 2006 to the present Request for Certificate of Correction. If it is determined that the fee amount is incorrect or if the check is missing, the Office is hereby authorized to charge the fee to Deposit Account No. 06-1050.

This Certificate of Correction seeks to correct typographical, formatting and spelling errors in the "OTHER PUBLICATIONS" section of the References Cited [56] introduced by the PTO. The remaining corrections to the "OTHER PUBLICATIONS" section previously requested in the Request for Certificate of Correction mailed on July 21, 2006 are hereby withdrawn.

This Certificate of Correction seeks to correct errors in the specification. The correction to column 11, line 50 seeks to correct a typographical error introduced by the applicant by removing an open parenthesis symbol. The correction at column 26 seeks to correct an error introduced by the Patent Office in a structure. This structure incorrectly displays a carbon to oxygen single bond. On page 39, lines 1-10 of the originally filed application this structure contains a carbon to oxygen double bond.
